

PROJECT PLAN

ID	Description	Category	Priority	Iteration
FM01	Face book authentication	Functional Requirement	1	1
FM02	Homepage	Functional Requirement	1	1
FM03	Find friend or building page	Functional Requirement	1	1
FM04	Select find friend page	Functional Requirement	2	2
FM05	Search friend page	Functional Requirement	2	2
FM06	Authenticate using facebook account	Functional Requirement	1	1
FM07	Get GPS and Compass values	Functional Requirement	2	1
FM08	Get the accelerometer	Functional Requirement	2	1
FM09	Implementing augmentation using accelerometer reading	Functional Requirement	2	2
FM10	Select find building page	Functional Requirement	2	1
FM11	Select building page	Functional Requirement	2	1
FM12	Proper navigation between pages	Reliability Requirement	3	3
FM13	Database connectivity	Functional Requirement	1	1
FM14	Time required to execute database operations	Performance Requirement	3	3
FM15	Application memory usage	Performance Requirement	3	3
FM16	UTA students with android phones	Implementation	4	1
FM17	Desktops/Laptops	Implementation	5	3
FM18	Eclipse	Implementation	1	1
FM19	Omega server	Implementation	1	1
FM20	Java	Implementation	1	1
